# Why Somfy?

Somfy has been improving everyday life for more than 270 million people by designing and manufacturing intelligent motorization solutions for interior window coverings and exterior solar protections. Somfy innovates to automate and connect shades, blinds, draperies, awnings, rolling shutters, exterior screens & pergolas for commercial and residential buildings in 58 countries across the globe. With 200+ million motors produced over the last half century, Somfy is committed to creating reliable and sustainable solutions that promote the best way of living and well-being for all.

- Somfy has a production capacity of more than 70,000 motors per day.
- Somfy motors have over 600 approved standards worldwide.
- Somfy has certified over 100 patents since the year 2000.
- Every Somfy motor goes through an extensive quality assurance process including testing in extreme environmental conditions, for electrostatic discharge, mechanical shock, and high life cycle.
- Somfy has a network of 15,000 trained professional installers throughout the world.

Somfy operates in 60 countries, with 76 subsidiaries, and 60 agencies spread across 5 continents. With 8 production centers, Somfy is an efficient and reactive industry leader. Thanks to its strict quality standards, Somfy is able to satisfy the needs of over 270 million users worldwide.

# Conveniently WireFree

This document is a presentation of the motors, accessories, and specifications related to the wirefree motor range. It provides the technical information needed to order, fabricate, and sell battery-powered motors.

Somfy offers an innovative and simple line of completely battery-powered wirefree motors. These motors install in minutes and provide a perfect solution for hard-to-reach window coverings and offer solutions in areas where access to wiring may be a challenge. This allows users to create the best living environment with optimal natural light levels at the press of a button without the need for an electrician. The wirefree motors can be controlled using hand-held remotes, an app on a smart device, the sound of your voice, wireless wall switches, table top controls, sensors, timers, and third-party automation systems.

**Zigbee®: A comfort-driven ecosystem of smart shading products featuring real-time, bi-directional communication.**

**Radio Technology Somfy® (RTS): wireless radio control of motorized window coverings via the RTS family of controls.**
